

Le Couchon

Le Grand Pouffe

INDOOR COLLECTION

DRAMATIC, CHIQUE BAROQUE SEDUCES SLEEK MINIMALISM

An exclusive design leads to theatrical simplicity. Le couchon was created as an inviting frivolous extra for exuberant soirées and decadent nights of unrestrained pleasure.

This pouffe pays tribute to the contrast between overwhelming, extravagant Baroque and simple, clear-out minimalism.

Le Couchon Le Grand Pouffe has a passion for bold design. Bold as in exclusive and unique. Bold as in a touch of decadence. We can cover the models with a wide variety of materials in accordance with your personal wishes.

Scandalously chic or divinely luxurious? One thing is certain: the timeless, robust Le Couchon pouffes catch the eye and leave no one indifferent.

MISSONI HOME COLLECTION

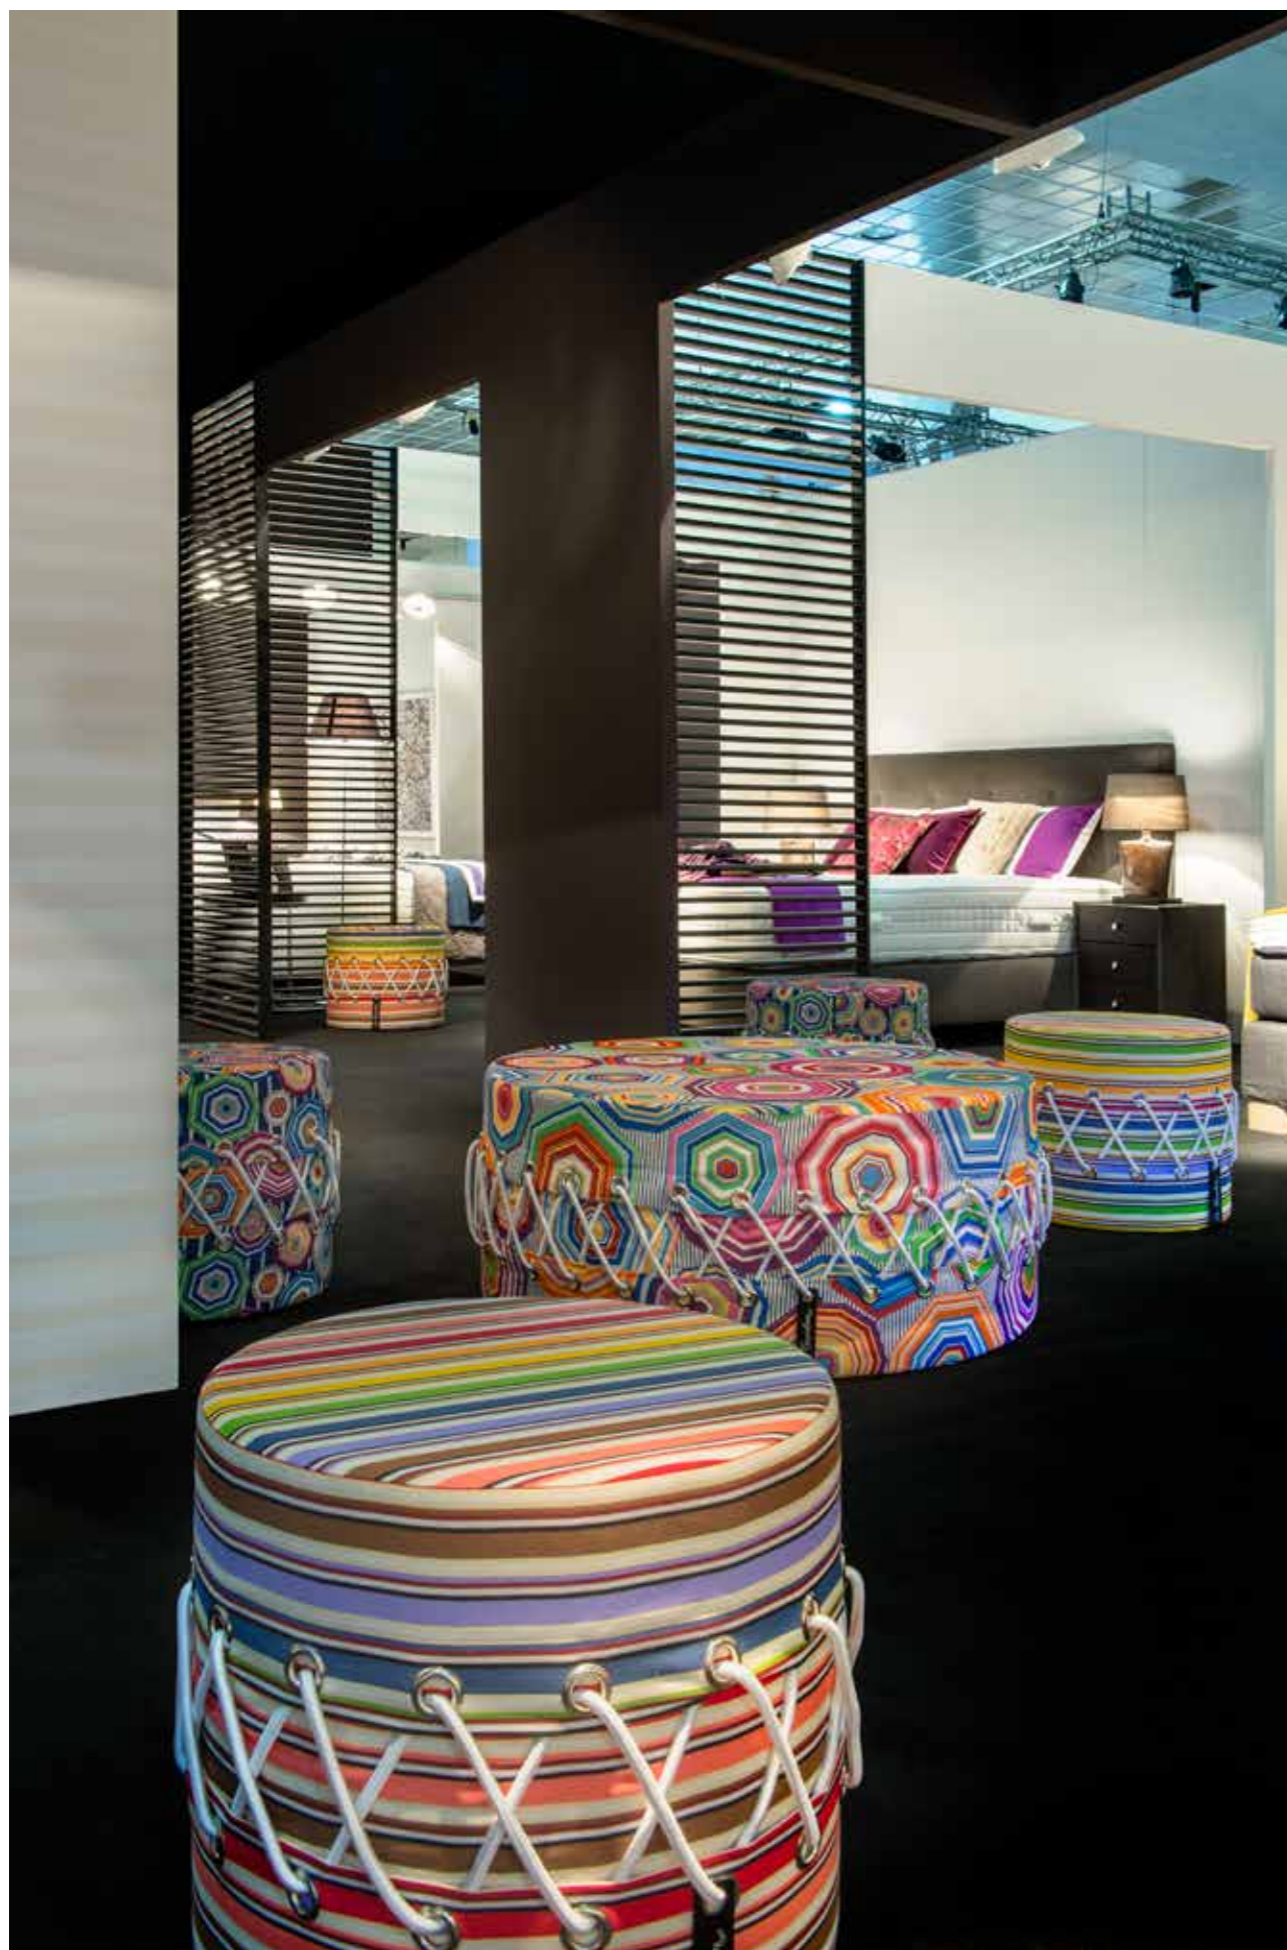

TWO PERFECT WORLDS COLLIDE HERE

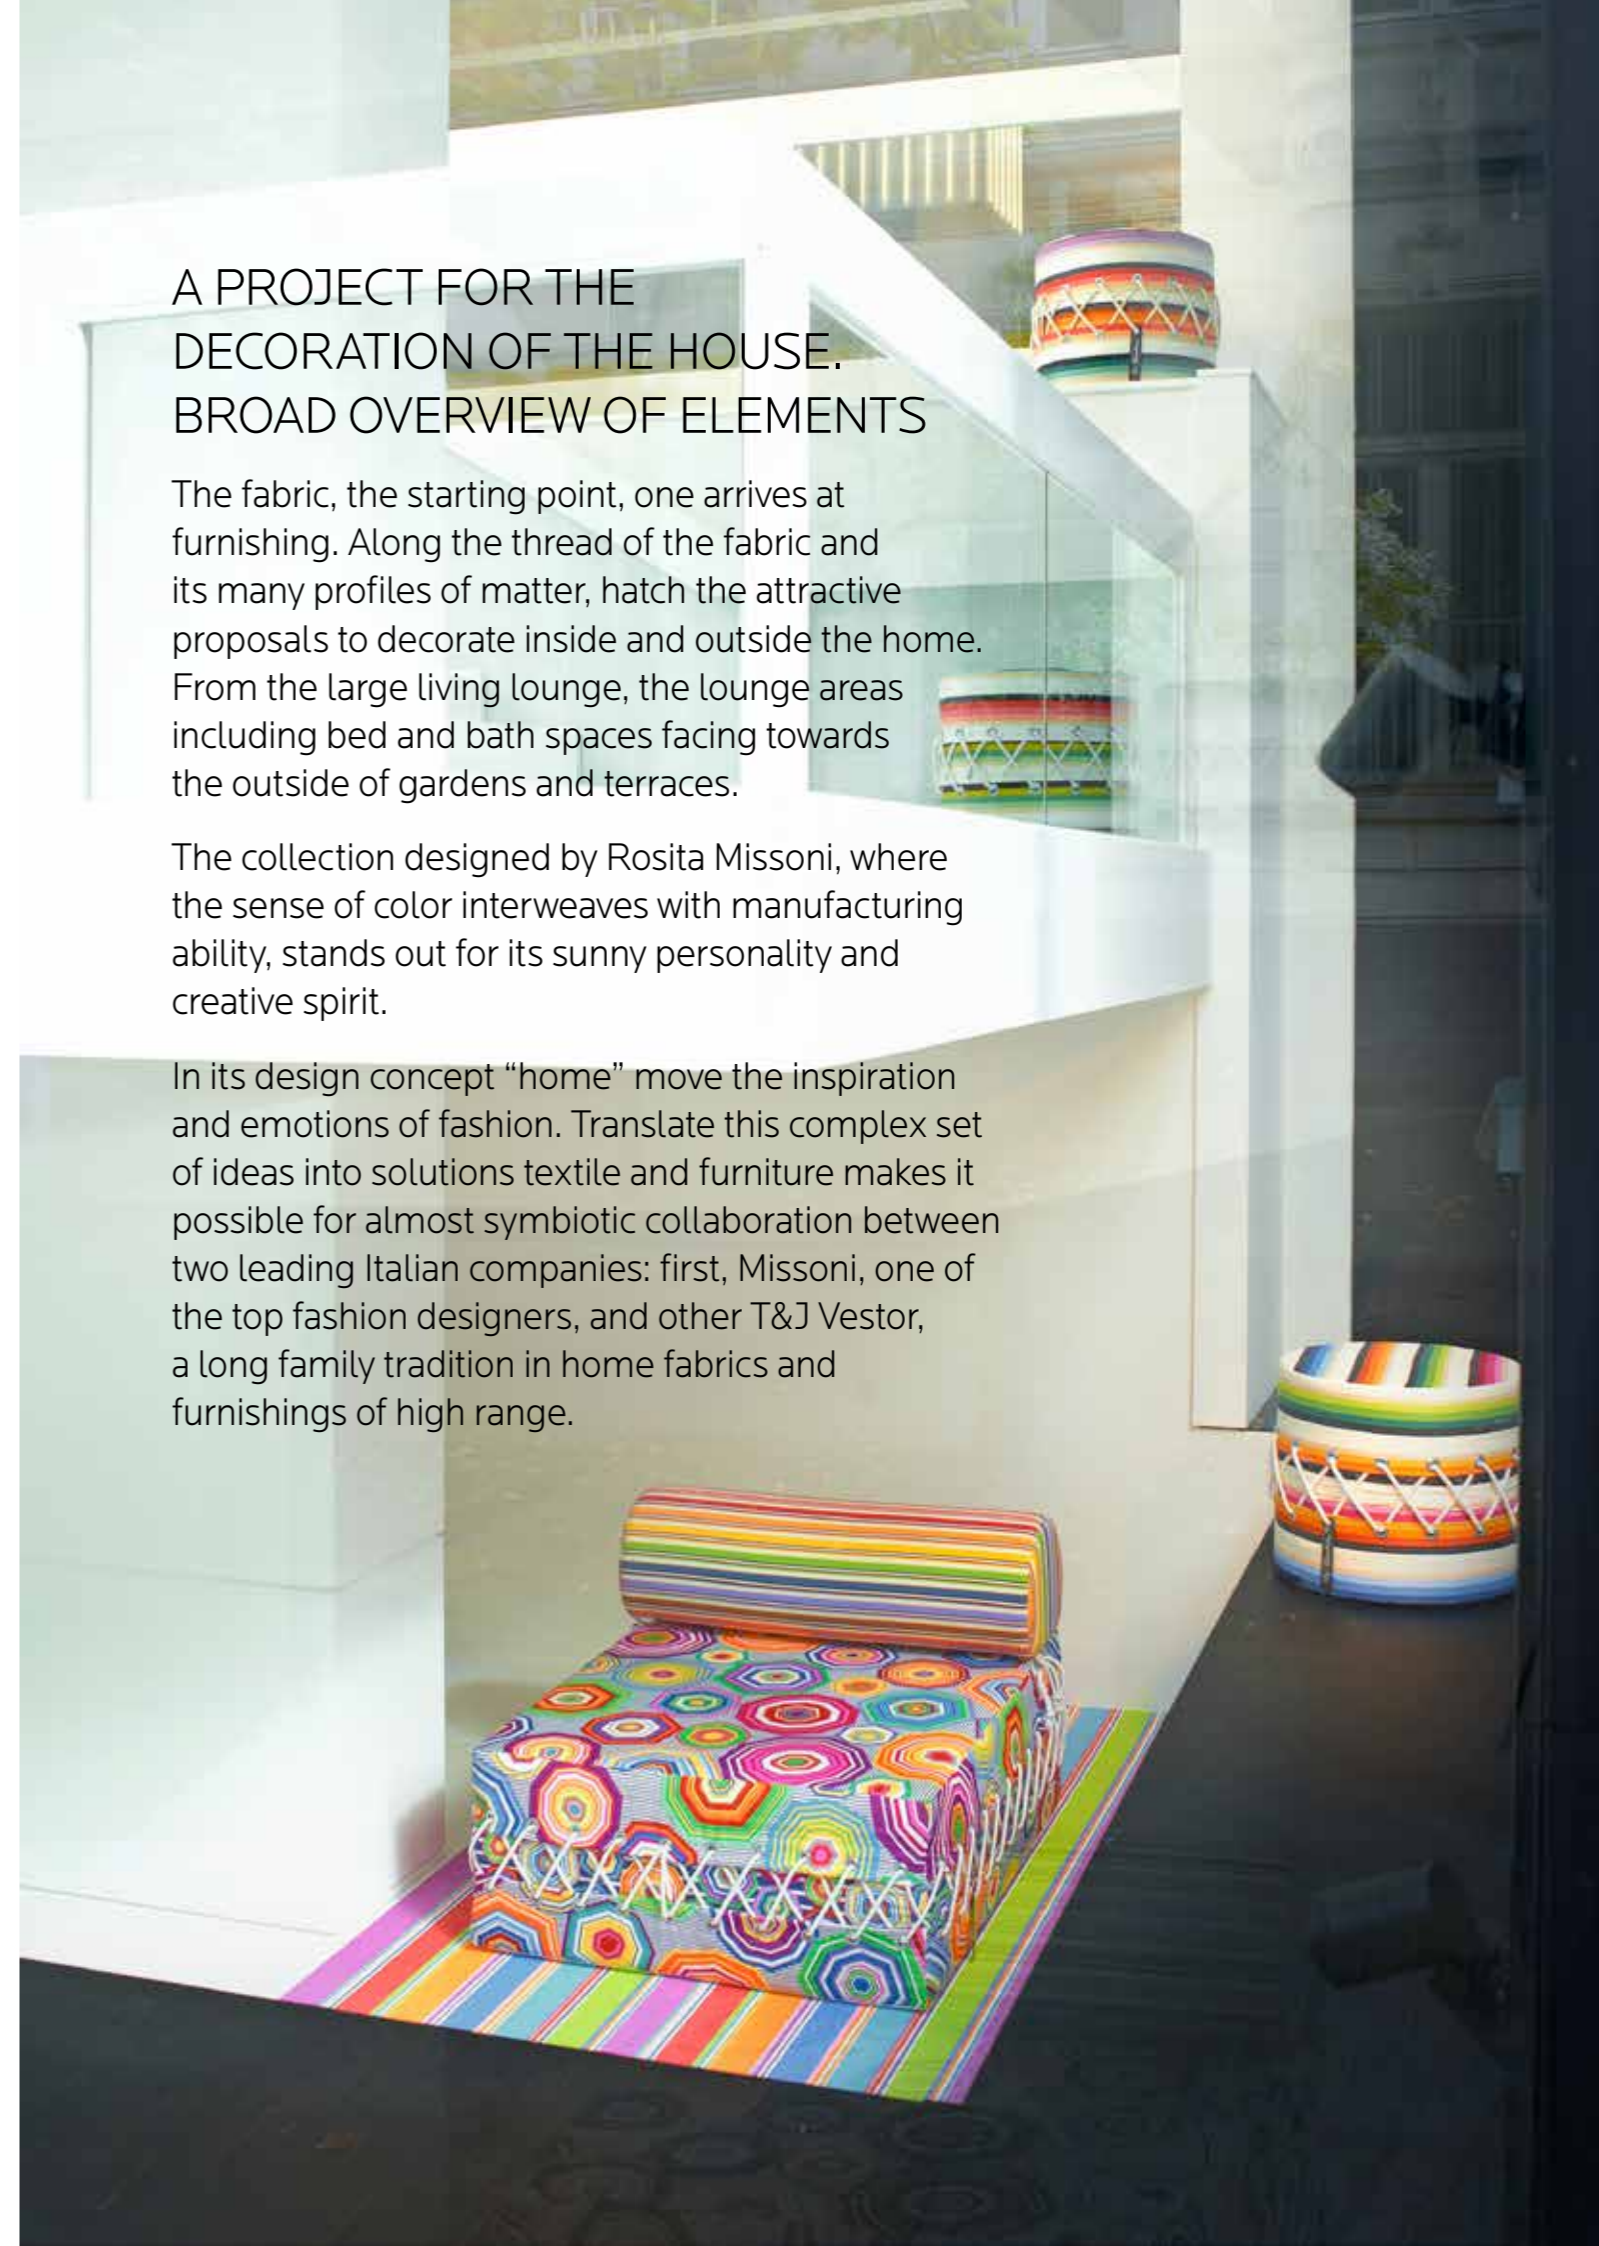

A PROJECT FOR THE DECORATION OF THE HOUSE. BROAD OVERVIEW OF ELEMENTS

The fabric, the starting point, one arrives at furnishing. Along the thread of the fabric and its many profiles of matter, hatch the attractive proposals to decorate inside and outside the home. From the large living lounge, the lounge areas including bed and bath spaces facing towards the outside of gardens and terraces.

The collection designed by Rosita Missoni, where the sense of color interweaves with manufacturing ability, stands out for its sunny personality and creative spirit.

In its design concept "home" move the inspiration and emotions of fashion. Translate this complex set of ideas into solutions textile and furniture makes it possible for almost symbiotic collaboration between two leading Italian companies: first, Missoni, one of the top fashion designers, and other T&J Vestor, a long family tradition in home fabrics and furnishings of high range.
